

Greetings California!

Our spotlight this month points into the future. For so many of us, the future is an uncertain destination. So many things in the world influence where our paths lie so, as Eastern Star members, we do what we can to secure at least a portion of that for ourselves and each other in the form of our Eastern Star Homes. This month we are placing the spotlight on a specific way to support those homes in the form of our Endowment Fund. This fund, as a whole, supports the maintenance and operations of the Eastern Star Homes in California BUT, did you know that there are two branches within this fund that could use your help? Within the Endowment Fund, there is an unrestricted fund which goes specifically towards supporting the activities that engage and entertain our residents. There is also a restricted fund which is applied directly to the maintenance and operations of the Homes. To donate to either of these parts of the Endowment Fund, be sure to visit our website and click on the “Our Charities” tab!
