

## August is StarCARE Month

StarCARE is not a fund under the Foundation. It is a service for our members. StarCARE responds to requests for assistance from members. Upon receipt of a request for assistance, StarCARE personnel investigate the request and determine the appropriate committee, charity, or organization to which to refer the request. StarCARE personnel provide the necessary contact information to the requester. If the requester is referred to a California Eastern Star charity, StarCARE directs a report to the committee or charity. StarCARE personnel may also refer to an outside organization regarding any request.

To seek assistance or just for more information about StarCARE, contact them at (800) 567-CARE or (800) 567-2273.
