

## **Autumn Greetings California!**

When it comes to cancer, it is rarely a good conversation. But it CAN be! California Eastern Star has as one of its many charitable endeavors, cancer research. We are always searching for that cure but in the meantime, we can also provide funding for the diverse treatments that cancer patients have available to them. This term, your Worthy Grand Matron has set the focus for this fund to be set on immunotherapy research. Donate to this worthwhile cause in the hopes that maybe, just maybe, one day, the rare good conversation isn't so rare anymore. Please visit our website and click on the "Our Charities" tab.
