

# A Bridge of Support for Our Members

The Outreach Services Program supports California Eastern Star members who are not residents of the Senior Living Community. Outreach connects members with essential local agencies through information and referral services. Additionally, the program offers financial assistance to help qualified members remain safely and comfortably in their own community.

Your generosity bridges a critical gap and provides vital support for our members.

To learn more about the Outreach Services Program, please call 1-800-567-CARE (2273).
